## 5TH.—THE SALINE LAND GRANT.

Since the last biennial report of this office there have been patented of this grant eight hundred and eighty acres, of which, four hundred and forty acres are in Appanoose, forty acres in Decatur, and four hundred acres in Lucas county.

The following described tracts, to-wit: the s hf of Sec. 13 and ne qr Sec. 23, Tp 70, Rg 16 west, were approved to the State on October 31st, 1855, by the Secretary of the Interior as part of the Saline land grant. Said tracts are also claimed by the Burlington & Mo. River Railroad Co., the same having been approved by the Secretary of the Interior on February 23d, 1869, to aid in the construction of the Burlington & Missouri River Railroad. The State has always considered these tracts as part of the Saline grant, and has sold and conveyed a part of them under this grant; but, as appears by the following letter from the Commissioner of the General Land Office, the approval of these tracts as saline lands was revoked by the Secretary of the Interior.

It would be advisable to call the attention of the Legislature to this matter, that they may take such action in the premises as they deem best.

DEPARTMENT OF THE INTERIOR,  
GENERAL LAND OFFICE,  
Washington, D. C., June 9, 1875. }

REGISTER STATE LAND OFFICE, Des Moines, Iowa:

SIR: I am in receipt of your letter of the 1st inst., enclosing copies of two letters from the Commissioner of the General Land Office to J. A. Harvey, Register of the State Land Office, dated February 26 and March 25, 1864, and in reply I have to state that the S.  $\frac{1}{4}$  of Section 13, and N. E.  $\frac{1}{4}$  of Section 23, Township 70, Range 16 West, were "selected for saline under Act of 3d March, 1845. See list accompanying letter of Register of 22d November, 1854, approved by Secretary of Interior 31st October, 1855, approval revoked by Secretary of Interior December 15, 1855, five full sections contiguous having been approved irrespective of this tract." The above named tracts were approved to the Burlington & Missouri River Railroad May 13, 1869.

Respectfully,

S. S. BURDETT, Commissioner.

## 6TH.—THE SWAMP LAND GRANT.

We give herewith a list of the swamp and overflowed lands approved and patented to the State, and by the State patented to the several counties in which the same are situated, since the last report of this office. A full and complete list of the selections of swamp and overflowed lands of the State as the same are exhibited by our records; also, a letter from the Commissioner of the General Land Office in which he indicates the course the Department intends to pursue with regard to certain lands certified to railroads, but claimed by the State and its grantees as swamp.

The agent, (Mr. P. S. Brown,) who was appointed by the Governor under Joint Resolution, No. 15, of the adjourned session of the Fourteenth General Assembly, to procure certain lists of lands from the General Land Office, and from the local Government Land Offices of this State, for the information of this office—has performed that duty, and the lists procured by him are now on file in this office, among which are lists of swamp selections of the several counties of which we have heretofore had no record.

A list of swamp and overflowed lands approved and patented to the State, and by the State to the several counties in which the same are situated, since the last report of this office.

Letter of the Commissioner of the General Land Office indicating the course the Department will pursue relative to lands certified under the Railroad grant, but claimed by the State and its grantees under the Swamp Land Grant.

DEPARTMENT OF THE INTERIOR, }  
GENERAL LAND OFFICE, }  
WASHINGTON, D. C., July 7th, 1875. }

W. F. STEIGER, Esq.,

*Agent of Iowa Railroad Companies, Washington, D. C.*

SIR: Your letters of May 18 and 21, 1875, have been received; also that of May 20, 1875, enclosing printed argument of Hon. James F. Wilson, of Fairfield, Iowa, attorney for certain railroad companies, in reference to the investigation of the swampy character of certain lands which have been certified to said companies, but which are claimed by the State as swamp lands, and in reply thereto, I have to say: That if the lands in question have been certified to the railroad companies before the right under the swamp grant attached, no examination or inquiry would be made; nor will this office further inquire with regard to the correctness of any decision made heretofore in cases where the swampy character of any tract or tracts of land has been already investigated and that question decided; but in cases of hasty or inadvertent action where the rights or claims of parties have been overlooked and not examined, such parties have the right to be heard.

This office, with the approbation of the Secretary of the Interior, has further examined numerous cases in which patents have been issued erroneously, both to individual purchasers and to railroad companies as claimants under land grants, although no ground of fraud was alleged, and when such error appeared the patentee has been duly notified thereof and requested to relinquish his apparent title, and upon his refusal or neglect to do so a patent has issued, notwithstanding such neglect or refusal, to the party found to be entitled thereto, reciting in such second patent the fact of the former erroneous or inadvertent patenting.

Very notable cases of such second patenting have recently occurred in regard to lands in California, some of which may be mentioned.

By act of Congress [Revised Statutes, section 2488, second clause,] all lands which had been segregated by the State as swamp lands by survey in accordance with the United States system of surveys, in

townships before that time surveyed, were confirmed to the State, saving the rights of settlers and others, and the United States Surveyor General was required to examine the State segregation maps and surveys, and when he found them thus to conform to the United States system of surveys to construct and approve township plats accordingly and forward to this office for approval.

The Surveyor-General neglected this duty for several years, and in the meantime part of the lands which had been thus segregated were claimed by Railroad Companies under land grants made by acts of Congress, and were regularly listed and patented to such companies under the direction of this office. Many of these cases have been examined within the last three years, and others are now undergoing examination, and whenever it is found that the Railroad Company had not acquired its right prior to the act of Congress under which the State claimed the land by virtue of the Swamp segregation, such Company is notified to surrender its patent, and after a reasonable time given to comply therewith, another patent is issued to the State reciting therein the fact of the prior erroneous patenting to the Railroad Company; several such patents have been already issued and others are in course of preparation.

When the first list of said lands was sent to the Secretary of the Interior for his approval, the Attorney for the Railroad Company presented his protest before the Secretary, relying upon the same course of argument presented by you in this case, that the land having been certified to the Railroad Company was beyond the jurisdiction of this Office or of the Department; but notwithstanding such protest, the Secretary approved the list.

The only difference between the California cases, and those in Iowa now under consideration is in regard to the question to be settled: In California, the matter to be inquired into is whether the lands were segregated by the State as Swamp in a certain manner and prior to a certain date: In Iowa the question to be decided is whether on the 28th of September, 1850, the lands were swamp or overflowed within the meaning of the act of Congress granting swamp lands to the States.

I am aware that some of my predecessors in office refused to issue such second patents even in the clearest cases of error unless the first patentee relinquished his patent and reconveyed the land, but the right and the duty to issue such second patent, when the issue of the first was erroneous is not now questioned. Such action may appear to be in conflict with some of the views expressed by the Secretary of the Inte-

rrior in his letter of Feb. 28, 1860, quoted and relied on by you and which you say has never been revoked or modified by any of his successors, and is therefore still in force.

There are various ways however of modifying an opinion expressed by the Secretary, or by any other officer, it may be as effectually done and a different rule established *by a contrary practice*, as though overruled in terms. You quote from the Secretary's letter before named, the following sentence: "When the Department by its officers has fully executed one grant, its officers should cease all action under another grant of the same land to the same grantee."

This you insist is decisively against the right of this office now or at any time since the certification of the lands in controversy to the companies as inuring to their grants, to again exercise its executive jurisdiction over them for any purpose and especially with a view of eventually listing them to the State, if found upon the proposed examination to be swamp lands. I find no ground for questioning the correctness of either the policy or principal couched in the language of the quotation. I fail however to perceive its applicability to the matter in hand. To make the language of the Secretary effective of the ends of the companies it is necessary to hold that there was a grant of these lands for railroad purposes, but this is the essential point of denial on which the proposed action of the office is to be had; for it is held, that if on the 28th day of September, 1850, the lands were swamp or overflowed they became vested, were granted to the State, by the Act approved on that day, [Revised Statutes, Sec. 2479,] and that henceforth Congress was powerless either to resume the grant or to divert it to any other use. It follows, therefore, that the action of this office, in certifying the lands in question to the companies was not action under a grant, but a mere mistake which, however, it may seem to impugn its case on the execution of its functions, must not be allowed to stand in the way of the due discharge of a present duty.

The suggested hardship upon purchasers from the railroad companies incident to a disturbance of their present titles by the proposed investigation has but little relevance to the question now before this office. The fact however remains that the swamp land Act carried over to the State a present grant, and that each tract of land carried to the companies and to their grantees, testimony upon its face identifying it as the land of the State under the grant, or that of the United States subject to Congressional control.

The land being thus granted to the State, the Act of Congress grant-

ing the same imposes certain duties on the Secretary of the Interior, to-wit: to make accurate lists and plats of all such lands and transmit the same to the Governor, and on the request of the Governor, cause patents to be issued to the State. The Secretary must necessarily perform this duty through his subordinates, and soon after the passage of the Swamp Grant by Congress, a plan was adopted, on consultation with the State authorities, for making this examination.

In Iowa the State undertook the selection of the land and the presentation of proof of its swampy character to the Surveyor General, the ultimate determination of the matter being reserved to the Interior Department.

The State has long since claimed the lands in question as swamp lands, and furnished prima facie evidence that they are of that character. This claim has not yet been examined by this office, and until it is so examined and either rejected or approved the duty of this Department, is not performed. Neither is it excused from this duty because the General Land Office has hastily or inadvertently certified the land to another claimant. The fact that such certification was nominally to the State for certain railroad companies does not change the matter. It was not granted for such railroads if the land is swamp, and such certification is erroneous the same as if it had been made to the railroad companies directly. The Supreme Court of the United States in December, 1869, in case of the Hannibal & St. Joseph Railroad Company vs. Smith [error to Supreme Court of Missouri] declared that it was the duty of the Secretary of the Interior primarily to decide the question of the swampy character of the land, and then held that when the Secretary had failed to discharge that duty it was proper for the Court to make the inquiry.

The duty, then, of ascertaining the fact whether the land is or is not swamp, belongs primarily, as declared by the Supreme Court, to the Interior Department. That Department makes the inquiry through this office, and though the suggestion that the General Land Office is "overburdened with its numerous and intricate duties," may seem to excuse the delays and mistakes with which it is sometimes chargeable, it cannot excuse a refusal or neglect to discharge a plain duty. The taxing of these lands, and its effect on the title under the laws of the State is a matter in regard to which it is not the province of this Department to inquire.

Mr. Wilson says "It is notorious that many of the best lands in the State have been certified to the State under the Swamp land grant—

lands that are in no sense swamp—are these cases to be re-opened and the Companies allowed to contest the right of the State and its grantees before the Department?"

When the question is presented it will be met, but will not be anticipated. I may say, however, in regard to this matter, that it is probable that most if not all the lands which may have been thus certified, [if any such were certified] were confirmed by a subsequent act of Congress [Revised Statutes Sec. 2484.]

A question has been suggested in regard to that part of the lands which were brought before this office by the Act of Congress, approved March 5, 1872. [Statutes at large Vol. 17, page 37,] and although Mr. Wilson does not raise it in his argument, it may be well to examine it.

The act provides that the Commissioner shall examine certain selections and allow or disallow according to the acts of Congress in force touching the same at the time such selections were made, without prejudice to legal entries or the right of bona-fide settlers under the homestead and pre-emption laws of the United States prior to the date of said act.

It has been claimed by some that a certification for the use of a Railroad Company is a "legal entry" within the meaning of that act. I do not think so, such certification is a mere identification of such lands as were within the prescribed limits. An "entry" means a purchase with money, or a location under or by virtue of some kind of warrant or scrip.

I conclude therefore, after a careful examination of the whole subject, that unless the State authorities shall formally abandon the claim of the State, this office has no right to refuse to make the investigation in regard to the swampy character of these lands, and if any of them are found on examination to be of the description of lands granted to the State as "swamp and overflowed lands," it will be the duty of the Department to cause the same to be certified, and on the request of the Governor, patented to the State as such.

Your request therefore, and that of Mr. Wilson, for the recall of instructions to the Register and Receiver in regard thereto is refused.

You will be allowed thirty days from the date hereof, for an appeal to the Secretary of the Interior, and the Railroad Companies will be allowed a reasonable time after final decision to begin proceedings to contest the swampy character of the land.

Very respectfully,

S. S. BURDETT, *Commissioner.*

### 7TH.—THE RAILROAD GRANT.

Since the publication of the last biennial report of this office, the State has conveyed to the several railroad companies, lands as follows:

To the Cedar Rapids & Mo. River R. R. Co.....	628,589.71 acres
To the Sioux City & St. Paul R. R. Co.....	208,050.34 acres
To the Iowa Falls & Sioux City R. R. Co.....	6,471.08 acres
To the Des Moines Valley R. R. Co.....	20,630.96 acres

The lands so conveyed are all published in previous reports of this office, by particular description, except those conveyed to the Des Moines Valley Railroad Company and 3,465.82 acres of those conveyed to the Iowa Falls and Sioux City Railroad Company, which are published herewith. Of the lands embraced in the lists published herewith, those tracts in the Iowa Falls & Sioux City Railroad list, 720 acres in the Sioux City & St. Paul Railroad list and 20,630.96 acres in the Des Moines Valley Railroad list are all that the State has conveyed.

None of the lands certified to the State and which inure to the Dubuque & Sioux City Railroad and Chicago, Rock Island & Pacific Railroad have been conveyed to either of said Companies by certificate, deed or patent; nor has any conveyance been made to the Burlington & Missouri River Railroad Company of the lands certified to the State to aid in the construction of said road, save that mentioned by Hon. J. A. Harvey in his report for 1865, as Register of this office.

The following are supplemental lists of lands approved and certified to the State of Iowa under Act of Congress of May 15th, 1866, to aid in the construction of certain railroads:

These lists were approved by the Department, on January 29, 1874, except Lists No. 13, which was approved April 24, 1875. The State has conveyed the lands embraced in List No. 12, (Webster county), except the se qr Sec. 23, Tp. 89, R. 29, to the Des Moines Valley Railroad Company; this tract was withheld from conveyance to said Company on account of its having been pre-empted by Jeremiah Lenahan. There are some tracts marked with a *star* that were certified in 1852 and 1853, as Des Moines River lands, and the State has long since conveyed them—some to individuals and some to the DeMoine Navigation and Railroad Company. No conveyance has been made by the State of any other tracts in said lists.

The following is a communication relative to the Des Moines river school land litigation from the attorney in behalf of the State and its grantees:

DES MOINES, IOWA, Nov. 29, 1875.

HON. DAVID SECOR, *Register State Land Office.*

DEAR SIR:—Yours making inquiry as to the present *status* of the litigation in which numerous grantees of the State under the so-called Des Moines river school land patents are defendants, was duly received. Under the act of March 12, 1874, Mr. John A. Hull and myself were employed as counsel to represent the State in protecting the interests of its grantees. It was subsequently agreed between all of the various parties in interest, that a case supposed to involve legal questions which would determine the rights of all, should be selected for trial, and that in the mean, proceedings should be stayed in all the other actions; we selected for this purpose the case of Chapman against Woolsey, then pending in chancery in the circuit court of the United States. An order was made by the court directing that the complainant file a supplemental bill in which the State should be made a party defendant. The issues were duly joined and the case is now ready for hearing and will probably be submitted at the adjourned term of that court in January. The evidence is printed for the use of the court and the case will probably be decided very soon after its submission. We confidently expect a favorable decision.

With great respect,

Your obedient servant,

GALUSHA PARSONS.

Respectfully submitted,

DAVID SECOR,

*Register of State Land Office.*
